

Guest Fees and procedures

Adult guest fee £10.00

Junior / student guest fee £2.50

This fee applies to tennis, squash and fitness (please note that fitness guests are by arrangement only - we do not allow ad hoc use of the gym by non-members)

There will be no limit to the number of times that a non-member can come to the club as a guest of a member to play tennis or squash.

Applicable from 1st May 2019.

Members are required to always declare who else is playing on their booking.

Ideally this should be done by adding the other player name/s when making the booking as it will save time when checking in for your court. If there are any non-members playing on the booking, the guest fee should be paid.

Equally important is that the booking holder should always check in at reception before using the court, also confirming that the other named players on the booking is correct. This can be done with the receptionist on duty but you may find it quicker and more convenient to do it yourself on the "self service" member PC - you will need your membership card to confirm your check in.

Your support and cooperation in this will be appreciated.
